

Risk Management & Safety
Notification of Revisions to Nevada Administrative Code 459
April 20, 2016

Title: Nevada Administrative Code 459

Effective Date: Approved but not yet codified

Compliance Date: To be determined.

Summary of Changes:

The approved revisions to NAC 459 include provisions for:

1. Amends and modifies the regulations so that they are compatible (+ identical) with the NRC or Federal regulations.
2. Amends and modifies existing language to make regulations more clear, current and compatible with the intent and scope of the Program.
3. Fees for duplicate mammography technologists' certificates.
4. Adoption by reference of certain NRC Regulations Title 10, Code of Federal Regulations.
5. Regulation authorizing the Division to impose enforcement actions and fines.
6. Clarification of Radiation Safety Officer (RSO) requirements.
7. Broaden regulation fee structure for certain specific licenses to provide for a reduction in fees.

Impact of Changes:

The Radiation Safety Office is actively reviewing the approved revisions so we are aware of what possible impacts it will have on UNLV's program. The two revisions listed below could impact UNLV's program:

1. Regulations that authorizes the Division to impose administrative fines.
2. Specific requirements for Decommissioning Funding Plans that will require the Plan to include a cost estimate for an independent contractor to complete the work.
